UNIT OF COMPETENCY NO. **ICT315202**	**APPLY QUALITY STANDARDS**

Self-Check 2.1-2: Understanding Quality Standards

Self-check · Module version 2 · Completed · Handed in 2 times

Self-check, attempt 2: 10 of 10 correct

1. Brand recognition alone is sufficient for selecting quality materials without evaluating specifications.
   Answer: False — Correct
2. A reliable material performs its function well, operates safely, and gives consistent performance.
   Answer: True — Correct
3. Standards are always government-mandated and cannot be voluntary.
   Answer: False — Correct
4. It is acceptable to use an outdated version of a standard if the latest version is not immediately available.
   Answer: False — Correct
5. Quality checking provides assurance of the integrity and security of benefit processes.
   Answer: True — Correct
6. When receiving materials, you should verify that installation and setup terms are met.
   Answer: True — Correct
7. In flow production, units wait for an entire batch to be completed before moving to the next stage.
   Answer: False — Correct
8. Pregnant workers need extra caution regarding electromagnetic field exposure from computer equipment.
   Answer: True — Correct
9. When handling difficult customers, you should focus on the person rather than the problem.
   Answer: False — Correct
10. Critical thinking requires evidence and follows that evidence wherever it leads.
    Answer: True — Correct

This sheet is a record of the work done on one activity. It is not a competency decision: competence in a unit is decided on assessed evidence.
