Self-Check 2.1-3: Workplace Procedures and Terminology

Self-check · Module version 2 · Completed · Handed in 1 time

Self-check, attempt 1: 2 of 2 correct

1. Match the term in Column A with its description in Column B.
   Answer: Standard = Documents stipulating minimum levels of performance and quality universally recognized; Specification = Concise statements of requirements for materials or services that are project-specific; Job Production = Creation of single, unique items with each job receiving complete attention; Batch Production = Intermittent production where a group of components goes through each stage together; Flow Production = Continuous process where units move straight to the next stage without waiting — Correct

2. Match the material characteristic in Column A with its definition in Column B.
   Answer: Good Quality = Most important factor; products follow standards and are long-lasting and safe; Reliable = Performs its function well and gives the best possible performance consistently; Suitable = Appropriate for the specific application; only what is needed; Low Cost = Affordable within budget while assuring better quality, not the cheapest option — Correct

This sheet is a record of the work done on one activity. It is not a competency decision: competence in a unit is decided on assessed evidence.
